Hardware

The Keyboard Workstation 4 is an embedded point of sale terminal specifically targeted at operations with limited menus and ideally suited for indoor and outdoor concession stands in stadiums, arenas and amusement parks, as well as coffee/espresso carts and small quick service operations.

Featuring a daylight viewable, backlit operator display, robust keyboard, spill proof casework, and wide operating temperature range, the KWS4 is perfect for continuous outdoor usage in a wide variety of climates.

Back Office, Business Intelligence, Customer Relationship Management, Enterprise Support Solutions, Hardware, Point-of-Service, Restaurant Operations, Service Solutions

micros

Benefits Overview

Reliable

- Solid-state design that is reliable and rugged
- Microsoft[®] Windows[®] CE 4.2 is a secure, lower-cost operating system
- Passively cooled and uses flash memory for mass storage
- Specifically designed for indoor/outdoor use

Diskless and Fanless

 No fans or hard drive make the KWS4 more reliable and less costly to run than traditional PC-based devices

Quiet

The KWS4 has no moving parts, so there is no noise to announce its presence

Environmentally Friendly

- Compliant with the European Union Directive on Restriction of Hazardous Substance (RoHS) requirements and the latest Chinese environmental requirements
- The KWS4 requires less than ½ the energy of typical PC based devices, cutting power costs by 50%

Easy to Install and Service

- Pre-loaded with MICROS CAL (Client Application Loader) making installation as easy as plugging in a network and power cable
 Depot Friendly
 - Simple to swap with a handy spare
 - Removable "personality module" on an off-the-shelf compact flash card stores a record of key information
 - MICROS service providers pick up and repair the inactive workstation at your convenience

Compact

 The KWS4 can be placed or mounted to meet your specific needs and connected to a wide range of POS peripherals

Tight Integration

The joint development of cohesive hardware, platform software, and application software results in an extremely robust, easy-to-use point-of-sale appliance

Automatic Upgrades

 Operating system and software upgrades can be performed automatically and unattended

21.0

Processor	AMD Geode™ SC3200 ● Integrated system on chip with Geode™ core
Operating System	Microsoft [®] Embedded Windows [®] CE .NET 4.2
Solid State Flash Storage	32 MB Socketed Disk on Chip (Expandable to 128 MB)
Volatile Memory	Up to 256 MB PC133 SDRAM (Single DIMM Sockets) 128 MB Standard
Removable Flash Memory	256 MB Compact Flash - Standard 50 Pin Type 1 (Expandable to 1 GB)
Networking	 10/100 BaseT on Board Wake On LAN Supported
Operator Display	•240 x 64 Resolution
Keyboard	■ 108 keys
Power Supply	External, Universal Input / Auto-Switching
Integrated Magnetic Stripe Reader	3 Track TTL Interface (internal)
Audio	Internal PC Beeper
Cash Drawer Ports	2 – MICROS Cash Drawer Ports
Serial Port	1 – 9 pin RS-232 Serial Port
Serial Port A	1 – RJ45 MICROS IDN RS422/RS485/RS232 Switchable Port
Serial Port B	1 – RJ45 MICROS IDN RS422/RS485/RS232 Switchable Port
Customer Display Port	1 – External 4 Pin Mini-DIN Connector
USB Ports	2 – External USB
Dimensions	□ 13.7" W x 11.7" D x 5.4" T
Weight	Approximately 6.00lbs (2.7kg) / Shipping 9.5lbs (4.3kg)
Enclosure	Rugged ABS Plastic Blend, Spill Resistant Enclosure.
	(MICROS Grey) Passive Cooling (No fans)
Operating Temp	-10° C to 60° C (14° F to 140° F)
Certifications	FCC Class A, UL, CE, TUV, CCC
