Raise Restaurant Revenues

The JTECH GuestAlert® system efficiently manages customer flow and waiting guests. The *Restaurant Tough*™ JTECH guest pager family enhances the overall guest experience by enabling more efficient service to waiting guests.

All pagers offer voice alerts for the out-of-range feature that captures guests and reduces pager loss. And available promotional space provides valuable marketing opportunities.

GuestAlert Allows You To:

- Find guests faster
- Reduce no-shows and walkaways
- Quote accurate wait times
- Seat more people, more quickly
- Eliminate annoying PA noise
- Reduce guest anxiety
- Run a smoother operation
- Establish commitment between restaurant and guest

GuestPass™

Service by You. Efficiency by JTECH.

JTECH's wireless guest paging system is the ideal tool to silently notify guests that their table is ready.

GuestAlert® is available in three styles of guest pagers. The system is designed to provide superior coverage.

The optional Call4Sure™ Cellular Paging System integrates with GuestAlert to deliver added value and flexibility by calling waiting guests via their cell phone.
