Reduce Guest Queues
Exceed Expectations

ValetAlert™ provides your guests with the ultimate in convenience and guest service. While paying the check, a guest can remotely signal for their car.

This immediate communication allows valet staff to promptly deliver vehicles to departing guests.

Alphanumeric Pager

ValetAlert Allows You To:

- Provide superior service to your guests
- Eliminate unsightly queue lines in front of the building
- Streamline entry and exit processes
- Maximize revenues, especially during peak periods
- Improve valet parking services
- Reduce valet labor expenses or contract rates
- Differentiate your business from competition

Service by You. Efficiency by JTECH.

JTECH handheld transmitters fit in the palm of your hand, and communicate detailed text messages to the valet staff.

ValetAlert is part of the JTECH SmartAlert™ suite of wireless solutions, leveraging JTECH's unique Push Button Paging System to provide the flexibility and convenience of wireless messaging in a whole new way.
